(54) MULTICOLOR COPY FACSIMILE SHARED DEVICE

(57)Abstract:

PURPOSE: To make recording paper and document size simple and easily visible, and also, to reduce the cost by displaying them in common.

CONSTITUTION: The device is constituted of a reading part 1, a receiving recording part 10 and a signal processing part 20, and provided with a mode switching panel, a paper size selecting panel and a color mode selecting panel. In such a state, whenever a cassette size SW of the paper size selecting panel is depressed, in accordance with a copy mode or a read mode, size of each recording paper or document is selected successively, and its selected size is displayed in common on the same display panel by an LED. In such a way, recording paper and document size become simple and easily visible, and also, the cost can be reduced.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
